Pension fund sells 5.3% stake in EDC for P5.1B

Pork chop-chop in Sumat

By Reuters Staff

Sumatra, Indonesia, Feb. 6 (Reuters) - A major Indonesian pension fund has sold a 5.3% stake in the state-owned electricity company (EDC) for P5.1 billion (US\$1.1 billion), the fund's chairman said.

The fund, PT Dana Reksa Dharma, said it had sold the stake to a consortium of investors, including the state-owned bank PT Bank Mandiri and the state-owned insurance company PT Asuransi Jiwa.

The sale was part of a broader effort by the fund to diversify its portfolio and reduce its exposure to the stock market, which has been volatile in recent months.

The fund's chairman, Bambang Trihatmodjo, said the sale was a successful transaction and that the fund was pleased with the results.

The EDC stake was one of the largest holdings in the fund's portfolio, and its sale was widely expected in the market.

The fund's assets under management are estimated to be around P100 billion (US\$22 billion).

The sale of the EDC stake was the largest single transaction in the fund's history, and it was a significant move for the company.

The fund's chairman said that the sale was a strategic decision and that the fund was confident that the sale price was fair and reasonable.

The sale of the EDC stake was a major event in the Indonesian financial markets, and it was widely watched by investors and analysts.
